GAINESVILLE, FLORIDA, SUNDAY, SEPTEMBER 5, 1909

TEN CENTS A WEEK

HINSON IS CONVICTED OF GRAND LARCENY

Charged With Robbing Express Company of Diamond Bracelet Valued At About \$5,000.

JACKSONVILLE, Fla., Sept. 4.—After a trial lasting two days, during which much evidence of a sensational character was repeatedly introduced, Henry Frank Hinson, a former express messenger, was yesterday convicted of grand larceny and receiving stolen goods. His counsel having given notice of a motion for a new trial, sentence was not imposed and Hinson is being allowed his liberty under \$1,500 bail.

More specifically, Hinson was charged with the theft of a diamond set bracelet, valued at \$5,000, from the custody of the Southern Express Company, January 26, last. The bracelet was in transit from the establishment of Alfred H. Smith & Co., in New York City, to the branch house of Greenleaf & Crosby, at Miami, when stolen from the transfer station of the Southern Express Company in Jacksonville.

Hinson was employed by the express company as a messenger, and was in the transfer station in this city, checking up his day's work, at the time the bracelet was stolen.

City Detectives Cahoon and Crawford and Special Agent T. J. Watts of the Southern Express Company were detailed upon the case. They traced the bracelet from New York to this city. Investigation revealed the fact that Hinson was in the transfer station soon after the arrival of the package, containing the bracelet, here on its way to Miami. By close application to the case, the

detectives picked up clue by clue that indicated the guilt of Hinson.

The bracelet was found at the house of Hinson, 1002 West Monroe street, with three valuable stones missing. The missing stones were later found in the possession of Hinson. They had been set in finger rings, and his wife gave another diamond set ring to the detectives when the house was searched.

The evidence was strong against Hinson and he was arrested.

He was arraigned for trial in the criminal court of record in May, last. A strong case was made against him, but a mistrial resulted, one of the jurors holding out for acquittal.

Following the mistrial, the court fixed bail in the sum of \$1,500, which was furnished by Hinson. He has enjoyed his liberty since.

Wednesday morning, in the criminal court, his second trial began. The detectives had unearthed more and stronger evidence against him. Much difficulty was encountered in selecting a jury, precaution being taken to secure only those best qualified.

Among the most damaging evidence was that which was given by Detective Crawford, who testified that Hinson had made two conflicting statements to him regarding the manner in which the diamonds came into his possession. He said that Hinson had stated in one instance that he had found the diamonds in Savannah, months previous. Statement was later made to the detective by Hinson that he had found the diamonds on

DR. CHEATHAM DIED IN TALLAHASSEE

**SHOT HIMSELF WHILE OUT
SQUIRREL HUNTING.**

**Carried to Hospital in Tallahassee
But Shock of Accident Was
Too Severe.**

TALLAHASSEE, Sept. 4.—Dr. H. H. Cheatham of Havana, Fla., accidentally shot himself in the foot while out squirrel shooting Wednesday. He was brought to Tallahassee and placed in the Silver Cross Hospital but the shock of the accident proved too much for his nervous system and he died of heart failure. His body was taken back home yesterday for burial.

ANOTHER CONTRACT FOR EVERGLADE LAND

TALLAHASSEE, Sept. 4.—Messrs. Sanders and Boggs, who, under the Broward administration on January 4, 1909, were granted by the I. I. trustees a contract for the purchase of 10,000 acres of State lands, at \$3 per acre, Thursday applied for and received a further grant of Everglades lands at a much advanced price per acre. Provided, however, that the canal, twenty feet wide and six feet deep, which the purchasers contracted to construct around the original grant, shall be at least two-thirds finished by January 1, 1911. Also, it was provided that work shall be begun on the dredges to be used in the construction of the canal within six months of this latter agreement, and carried on as expeditiously as possible. Otherwise, the purchasing party will forfeit all rights obtained under both contracts.

the street near the union depot, where they had been dropped by a negro while riding a bicycle a few days before he was arrested.

W. C. Parsons, a jeweler of this city, testified to the effect that he had set the diamonds to rings for Hinson.

Frank C. Hutchinson, of Alfred H. Smith & Co., importers of diamonds, pearls and other rare gems, identified the bracelet as having been one he designed. Mr. Hutchinson selected the stones for the bracelet and established uncontrovertible proof that the bracelet found in Hinson's house was the one consigned by his company to Greenleaf & Crosby's branch store at Miami, which had been stolen from the express company at the transfer station in this city.

The State also produced strong evidence in the shape of a witness who testified that Hinson had offered to bribe him to testify that he had seen Hinson pick up the package containing the bracelet after a negro had dropped it in front of the depot.

The defense introduced several witnesses who testified that they had seen him pick up the package in front of the union depot. Several business men were called upon to testify as to Hinson's good character. This portion of the testimony in behalf of the defense consisted almost wholly of statements to the effect that Hinson had invariably managed to pay his debts.

The trial commenced Wednesday morning at 9:30 o'clock and it was at 10:30 o'clock last night that the case was given to the jury. Judge Maxwell's charge was impartial and able and was very forcefully delivered. The jury agreed at 4:30 o'clock in the morning. The verdict, which was sealed, was read in open session of the court at 9:30 a. m.

SHOT WIFE AND KILLED HIS STEP-DAUGHTER

**Culprit Eludes Posse But Is Captured in Adjoining
County and Landed In Jail.**

TROY, Ala., Sept. 4.—Chased across two counties by two sheriffs, several deputies and a large posse of citizens, with the certainty of being lynched if captured by the latter, William Stevenson, who yesterday morning shot and killed his step-daughter and his divorced wife, and seriously wounded his divorced wife, was yesterday morning brought to Troy and lodged in jail here. Upon advice that a mob of considerable numbers was nearing Troy at 8 o'clock last night, Sheriff Carroll called upon the Governor for military protection, and the Troy rifles were immediately assembled in their armory, with orders to assist the sheriff in protecting the prisoner. Sheriff Tatom of Crenshaw county advised Sheriff Carroll by wire that it was very probable that the body of men marching to Troy is the posse which yesterday morning joined in the chase for Stevenson, and he is of the opinion that the men will be

satisfied when they learn that Stevenson is safely in jail.

Stevenson admitted the shooting, and said it was the result of family trouble. He told the sheriff that he knew he would be lynched if taken back and tried near the scene of his double crime.

Yesterday morning Stevenson stole a shotgun and went to Mrs. Stevenson's home, where he sought a reconciliation. Being denied an interview by his divorced wife, he opened fire, the first shot taking effect in Mrs. Stevenson's right side, and completely severing her arm. The second load of shot struck Miss Vann in the abdomen, producing almost instant death.

About thirty members of the posse from Montgomery and Crenshaw counties, heavily armed, arrived here at 11 o'clock last night. They appeared to be satisfied when informed that Stevenson was safely behind the bars. It is not now thought that there will be any attempt to lynch him.

Florida Press Comment Upon Current Topics

While it is not generally known or understood, it is nevertheless true that most of the old Confederate veterans now living in Citrus county are not citizens, but paroled prisoners of war, about the only exceptions being those who have since the surrender been elected to office or served in the regular army, when it became necessary to take an oath to support the constitution of the United States. We were very forcibly reminded of the condition of things last week by the publication of the following in Florida and Georgia papers: "Hon. G. N. Saussey of Sylvester, Ga., has politely but firmly refused to accept an appointment as a member of the military staff of Governor Brown, because he says he is an unreconstructed Confederate and cannot subscribe to the required oath. When Mr. Saussey was appointed lieutenant-colonel on the staff there was sent him along with his commission the usual form of oath. Among other things it is required that appointees should take oath to support the constitution of the United States. In signing the oath, Mr. Saussey wrote upon it: 'I am a Confederate soldier in parole. I except to the twelfth, fourteenth and fifteenth amendments.'"

When the blue uniform was prescribed Mr. Saussey also scratched out the word 'blue' and wrote in the word 'gray.' Adjutant-General Scott returned the oath to Mr. Saussey and told him it must be accepted in full or not at all. The result was that Governor Brown received a letter stating while the writer keenly appreciated the honor of the appointment he could not yield his position in the matter, and respectfully declined. Mr. Saussey always wears the gray uniform, and is noted for his allegiance to the lost cause."—Inverness Chronicle.

With farm products bringing satisfactory prices and turpentine again selling at figures that mean diamonds and automobiles for the operators, 'tis little wonder that prosperity is now smiling down upon Florida.—Palatka Times-Herald.

Four People Were Killed And Thirty-Five Injured

PITTSBURG, Sept. 4.—Four persons were killed and thirty-five others injured, several perhaps fatally, at midnight last night when train No. 5, west-bound, on the Baltimore & Ohio railroad, known as the Royal Blue, running between New York and Chicago, was wrecked near Chewton, Pa., forty-eight miles from this city. The train ran into a broken rail, supposed to have been caused by train wreckers, and the engine, two Pullmans and two day coaches were thrown from the track. The cars immediately took fire.

Relief trains were sent to the scene from this city and Newcastle, Pa., and the dead and injured removed to a hospital at the latter place. The engineer and fireman of the train were instantly killed, and two passengers died on the way to the hospital.

Among the dead are: Engineer

John Dill, aged 45, of Grand Junction.

Baggage-master John Wheatcoat of Chicago Junction.

C. Cavanaugh, boiler inspector, was crushed, probably fatally.

The train was westbound from Pittsburgh to Chicago. It was whirling along at fifty miles an hour, when the engine suddenly jumped the track, and in a second the whole train had turned turtle into a deep ditch.

The railroad officials claim the wreck was caused by fiends who removed two fish-plates, moved the north rail inside and removed two spikes for a rail's length. An investigation after the wreck showed that the fish-plates and spikes were missing.

Hearst Is Very Anxious To Defeat Old Tammany

NEW YORK, Sept. 4.—William H. Hearst at a meeting of the Independent party's county committee here last night declared that he was prepared to use all his power in an effort to defeat Tammany at the approaching municipal election. He was willing, he said, for fusion with the various anti-Tammany organiza-

tion if he was satisfied that the organizations were loyal in general to the principles of the Independence party. The meeting last night was in the nature of a welcome home to Mr. Hearst after his trip abroad. Mr. Hearst made it plain that he would not himself be a candidate for office this fall.

Roosevelt Is Tempted With An Elephant Hunt

BERLIN, Sept. 4.—Ludj Jeason, the crown prince of Abyssinia, has invited Theodore Roosevelt to a great elephant hunt promising to beat up a white elephant for him to kill and otherwise to arrange a splendid sporting program.

This news has been brought into Berlin by Adolf Mayer, a kinsman of King Menelik of Abyssinia, who has arrived here with a commission from the Abyssinia government to purchase supplies. Before Mayer left Abyssinia a mission had been sent

to hand his invitation to Mr. Roosevelt wherever it could find him. "The envoys of the King are empowered to point out to Mr. Roosevelt," Mr. Mayer said yesterday, "that there is unrivaled elephant hunting in Abyssinia. The crown prince will send out 5,000 horsemen to encircle an immense range of prairie and drive in the elephants. Hundreds, and possibly thousands of elephants could be thus assembled, and there would probably be one or two white ones among this number."

SCHOOLS OF COUNTY TO OPEN THIS MONTH

MONDAY, SEPTEMBER 20TH, OPEN-
ING DAY FOR SCHOOL HERE.

Number of the Fall Schools Are Al-
ready Running and Attendance
is Very Good.

The public schools of the county for the fall term will commence to open tomorrow, and will gradually continue opening until about the latter part of the month, when they will all be running.

The Gainesville Graded and High School, which has usually opened about the 20th, will open this year on September 20th, and all of the schools of the county will be running by this time.

Already a few of the schools have opened for the fall term, but some ten or more open tomorrow, and the schools of the larger places like Micanopy, Alachua, High Springs and Hawthorn will open within the next two weeks.

Superintendent Kelley is highly pleased with the corps of teachers he has secured for the coming school term and believes that much good will be accomplished throughout the county.

He stated that the first week of the opening very little work would be done, owing to the change in the school books, but he believes that with the low prices that have been secured by the board this change will prove beneficial to the general patrons within a short while.

From present indications it looks as if the attendance will also be large, for no hindrance will be experienced by the children being compelled to remain at home to speak of, and this will make the first days of the school more gratifying to the teachers and the pupils to have a large start-off on the opening.

If the State geologists are right and the waters that supply our artesian wells and boil from the earth in large volume at several places in Florida are only the waters that fall during the course of the year on the surface and percolate the soil until they reach an impervious stratum, then it must be apparent that there has been none too much rain fallen, this year, inconvenient as it may be to have it by "wholesale." The State was, perhaps, in danger of going "dry" regardless of a vote of the people thereof on the matter.—Times-Union "Short Talks."

NEW ROOMING HOUSE IS BEING COMPLETED

PADGETT CONVERTING SECOND
AND THIRD STORIES TO HOTEL.

Old Building Corner West Main and
Masonic Streets Being Thoroughly Overhauled.

J. B. Padgett has started the carpenters on the large rooming house he has been contemplating for the past few months, which will be located in the old hotel building at the corner of West Main and Masonic streets.

All of the rooms over the Pepper Printing Company are to be repaired and overhauled and the place made into a first-class rooming hotel for the accommodation of the large number of people expected to be here all during the winter months.

Mr. Padgett stated that he would have all modern improvements in the building and that there would be twenty or more available rooms.

The work will be finished by the first of October, when the building has already been spoken for by a number of people who believe that such a place will prove a paying proposition.

LETTER TO L. C. SMITH,
Gainesville, Florida.

Dear Sir: The maker, who puts 2 or 3 pounds of whiting barytes or clay in a gallon of paint, saves \$1.50 or \$2.25 for himself and makes you overpay \$25 on a \$50 job.

It takes 15 gallons of his weak paint—it is weak from that adulteration and probably weak from benzine or water besides—it takes 15 gallons of that poor stuff to cover a 10-gallon job Devco; it may take 20. Here's a case:

Judge I. D. Fairchild owns two houses, exactly alike, in Lufkin, Tex. J. M. Torrence painted both houses, one Devco, 15 1/2 gallons; the other with another sold at same price; 25 gallons. That 25 gallon paint is weak and 15 per cent whiting; that's why it took 9 1/2 gallons more.

It costs \$2 to \$4 a gallon to paint any paint, whether good or not. Add this to the price, and the cost of your job is \$5 a gallon: \$75 or \$100 for trash; Devco \$50.

Paint that takes more gallons may or may not be adulterated; there are 8 pure paints and 200 adulterated; Devco is the strongest of all; it takes least gallons, makes the least bill, and wears longest, of all.

You can overpay from 10 to 120 per cent; and the more you pay, the worse your job. In paint, the rule is least gallons, least cost, longest wear.

Yours truly,

F. W. DEVCO & CO.
P. S.: The Gainesville Hardware Co. sell our paint.

MASONIC INSURANCE.

The Masonic Mutual Life Association of Washington, D. C., was organized in 1866, and the association belongs exclusively to its members. The object of this association is to furnish to Masons good insurance at cheaper rates than can be obtained elsewhere.

In this laudable undertaking the officers and directors invite your investigation and hearty co-operation.

Old line plan, five different contracts, 15 to 20 per cent under the regular commercial companies or an annual saving of \$6 to \$8 per thousand.

S.S.S. CURES BLOOD POISON

When the blood becomes infected with the virus of Contagious Blood Poison, the symptoms are soon manifested. The mouth and throat ulcerate, copper-colored spots appear, a red rash breaks out, the hair begins to come out, and usually sores and ulcers show themselves on different parts of the body. At the first sign of the disease S.S.S. should be taken, for the trouble is too powerful and dangerous to trifle with. If allowed to run on the tendency is to work down and attack the bones and nerves, and sometimes it makes a complete physical wreck of the sufferer. The disease can make no such headway if S.S.S. is commenced and used according to directions; its progress can be stopped, the poison removed, and health preserved. S.S.S. goes into the blood and removes the insidious virus, cleanses the circulation and makes a complete and permanent cure by driving out the cause. S.S.S. quickly takes effect on the blood, and gradually the symptoms disappear, the health is improved, the skin cleared of all spots, sores and blemishes, and when S.S.S. has thoroughly purified the circulation no trace of the disease is left. S.S.S., a purely vegetable remedy, cures Contagious Blood Poison because it is the greatest of all blood purifiers, tested and proven for more than forty years. Home treatment book and any medical advice free to all who write.

T. & J. RAILWAY TO MAKE IMPROVEMENTS

WILL SOON PLACE LINE OF
MOTOR CARS ON SAME.

This Will Greatly Improve the Service and Give Patrons Better Satisfaction.

There is a strong probability that the T. & J. railway will soon install a new system on their road in this city, which will marvel anything for service to be found in the country.

The new owners of the roadway are considering the plan of placing motor cars on the road which are pulled by small but powerful engines using coal instead of gasoline, and which are used extensively in some countries at the present time and which are said to be much more reliable and at the same time economical.

General Manager A. L. Glass stated Saturday that Lisman & Co., who now own a majority of the stock, are considering such a plan, but at the present time nothing was ready for publication.

He is of the opinion that this would greatly decrease the running expense of the road and at the same time give a much better service.

Besides this improvement contemplated, the new owners are also contemplating others which will again place this roadway in a position to give the service that was formerly intended.

This roadway runs through the very best farming section to be found in the State, and has the greater part of the time been a money maker for the owners.

OCALA WAS VICTORIOUS.

Defeated Oak Halls by Close Margin,
After Exciting Game.

The third of the series of games between the Oak Halls and the Ocala team was pulled off in Ocala yesterday. It was a pretty game up to the seventh inning, when the game stood 2 to 0 in favor of Gainesville, but the Brick City boys managed to cop the game by one run, making the score 3 to 2.

This makes the standing of the clubs as follows: Out of a series of seven games, Ocala won four, Gainesville, two, tied one.

WALDO WINS AGAIN.

WALDO, Sept. 4.—Waldo and Lawley met on the Starke diamond yesterday, Waldo winning by a score of 6 to 4. Batteries—Waldo, Pound and Harvey; Lawley, Pearce and Burney. The Lawley team was strengthened by the addition of four of the best Starke players. A large crowd witnessed the game.

INDIANS WANT GAME WITH THE OAK HALLS

NOW TOURING THE STATE AND
PLAYING NIGHTLY.

They Have Their Own Equipment,
Electric Lights and All, for
These Novel Games.

D. D. LeeRue, manager of the Indian Baseball Club, was in the city Saturday for the purpose of making arrangements to bring his club to Gainesville.

This club is making a tour of the country and play for the gate receipts, or a percentage, and have the reputation of being one of the best clubs that ever played ball in this country.

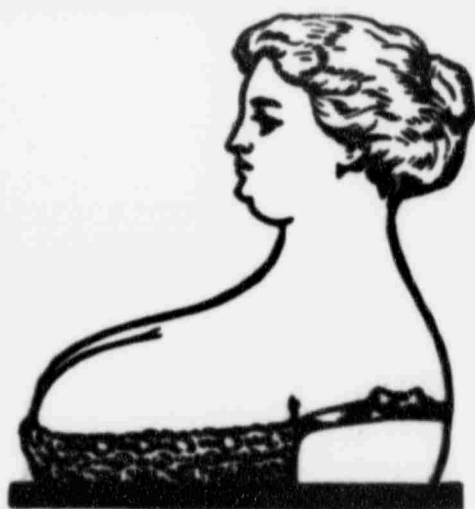

The club is composed entirely of Indians, and they play the most of their games at night, having their own electric light equipment which is carried about from town to town wherever they manage to secure games.

As Manager Davis is out of the city it is not known whether they will be able to get games in Gainesville or not, for it was the general impression that the team would disband for the season following the game at Ocala.

Gainesville has had a long record of baseball and the fans would have been better satisfied had the game been more even, but we have not had the pleasure of winning any victories that will allow us to do much crowing.

From a novelty standpoint the Indians would prove a drawing card for one or more games, but as their reputation for ball playing is so good we could do about as well with them with a scrub team as to hold the boys together for the game, and it is not likely that the game will be arranged.

The manager for the Indian club, before his departure, left a challenge and propositions for games, and the matter will be taken up by Manager Davis on his return from Ocala today.

Take Off the Fat Where It Shows

Most women suffer much humiliation because of great quantities of fat so located that, no matter how they dress, everybody sees that they are abnormal. This is the day of the slender figure, and fat women are simply not tolerated either in business or social affairs. Women may not know it, but men when they see a fat woman pass them on the street make all manner of sympathetic remarks about her. They do not mean to be unkind or to seem unmanly, but it is natural for a man to dislike fat on a woman. Where fat shows the most there is where it must be removed and as quickly as possible. The hot weather dresses seem to be made for the fat woman's misery and the slender woman's delight. They expose all the charms of woman and her ugliness as well. Exercise and diet will not remove fat. This has been proved. The famous Marmola prescription, which has met with such phenomenal success and has so many of our society women as its sponsors, is now being sold in tablet form to meet the demand of the public for this style of treatment. These little tablets go into your system just like food. They stop the stomach and digestive apparatus from producing fat and reduce the fat upon the body at the rate of from 12 to 15 ounces a day. They are harmless and can be carried in your purse and taken even after you have indulged in a hearty meal away from home. They are sold at all drug stores at 75 cents a case, or if you prefer you may write the Marmola Co., Dept. 254, Detroit, Mich.

MR. JONES IS HAPPY.

Turpentine Has Reached the High Mark, and His Firm Is Prospering.

Among the visitors to Gainesville Saturday was W. J. Jones of Sampson City, member of the firm of Venable & Jones, manufacturers of naval stores.

Mr. Jones was naturally in a good mood, because of the fact that turpentine has now reached the 56 1/2 mark, which looks good to the producers. He was compelled to undergo the strains of a very low market about two years ago, when spirits went to a margin below what it cost to produce it; but being a man of determination he decided to stick to it, with the result that during the period of these prevailing low prices his energies went for nothing. However, if the present prices keep up for any reasonable length of time, with the facilities at hand he expects to reap a reward for the set-back.

Messrs. Venable & Jones have two places, one at Sampson City and another at Clayno. They are working twenty-five crops, or 250,000 boxes, which makes them distinctively among the most extensive operators in this section of the State.

Railways which include the words "air line" in their titles will have to cut them out, lest they be mistaken for aeroplane companies.

Ben Tillman has come out for State-wide prohibition. It now remains for Henry Watterson to jump aboard the temperance band wagon, remarks The Palatka Times-Herald.

If chewing aids digestion, the people of this country ought to excel in this function, for approximately 20,000,000 pounds of chewing gum was used in the United States last year.

It is said there is a great and growing scarcity of telegraph operators in the West. Could this condition be due to the number who resign to join the ranks of the millionaires?

Since the pure food law went into effect the Government has collected over \$20,000 in fines from its violators. Although small, here is a source of revenue which is a benefit, looked at from any angle.

Vice-President Gardner of the Northwestern Railroad says that Western railroads will be taxed to handle the heavy traffic offered them this fall. This is about the only kind of taxation the railroads welcome.

That it pays to keep well is evident from the report of the Committee on Congestion of Population which states that the economic waste due to preventable sickness in New York in four years amounted to \$71,100,000.

Both the Palatka papers are fighting the re-establishing of saloons in Putnam county. That's right. If the saloon is to remain in Florida confine it to the larger cities. Towns like Gainesville and Palatka should never again permit the license of the sale of whiskey within their corporate limits.

That the Wright brothers have started a suit for alleged infringement of their patents may be taken as a pretty sure sign that aviators generally believe in the success of aerial navigations. Infringements are not made upon unworkable patents, neither do the holders of such patents care to defend them against infringement.

People who pretend to want work and who would be dreadfully disappointed if they got it, are fond of saying that the world owes them a living, which is only an indirect way of saying they believe society should support them. Every man able to work and having the opportunity to work is under obligation to his fellow men to perform that work.

Every friend of organized labor must deplore the dreadful riots that have just taken place in Pennsylvania. Without passing upon the merits of the dispute between the men and their employers it is enough to say that the cause of labor is always hindered by riot and bloodshed due to the action of the men themselves. They may be right in believing their cause just, concessions may be due them; they may have been wronged in several ways, but it always tends toward the worse if they resort to violence.

SOUTHERN PROGRESS.

Southern railroads will in the next few years be face to face with as great a transportation problem as any section of this country has heretofore been called upon to solve.

The remarkable growth of diversified industry in the States south of the Ohio and east of the Mississippi rivers, which has occurred in recent years and which is assuming ever enlarging proportions, will call for greatly enlarged transportation facilities and the expenditure of vast sums of capital in order to keep pace with this economic development and progress.

The latent resources of the South are receiving the attention of the whole world, and the extent and diversity of this commercial expansion, while creating an internal traffic largely local as to its origin, covers a wide field in its distribution, the burden of which must necessarily fall upon the railroads.

Briefly stated the South now furnishes 80 per cent of the cotton production of the world; it melts more than half of the pig iron and converts into cloth more than one-fifth of the cotton which it produces. The manufacture of furniture has grown to such proportions as is not exceeded in any other section of the country. Yet countless acres remain which never have been under cultivation and great areas of its forests which have been practically untouched.

Territory along Southern railroads is being covered with new manufacturing plants. Its forests and its untouched areas of rich soil, the abundant supply of the necessary raw material and cheap power, are attracting to the territory capitalists interested in manufactures and the cultivation of cotton, rice, fruits and vegetables which find a ready sale in the markets of the East and North.

The extent of this industrial expansion and its beneficial effects on the Southern railroads is fully reflected in the tonnage statistics of the various transportation lines which serve this territory. In 1900 the South had 38,116 miles of railroad, and in 1908 47,445, most of which is single track. The crying need is for double track, new lines, more equipment and terminal facilities in order to meet the growing demands of the traffic which has now reached the maximum capacity of the single track on most of the Southern lines.

Construction of new lines is proceeding very slowly. In 1906 only 1,317 miles were built; in 1907, 1,815 miles, and in 1908, 933 miles. In the same period the total of capital stocks and bonds increased from \$1,850,197,770 in 1906 to \$2,130,003,447 in 1908, this increase representing largely improvements in existing lines.

Tons of freight carried increased from 164,729,442 in 1906 to 176,316,914 in 1907, but owing to the financial and industrial depression in 1908 declined to a total of 168,951,021 in that year. The records of 1907 must therefore be taken as an indication of what the South and its railroads are doing in periods of normal business prosperity and development and what they will do in the future if the present industrial activity and commercial development continues along healthy lines.

That capital and labor are gradually arriving at a better understanding of their mutual obligations to each other and realizing the futility of unnecessary friction is evidenced by the report of the Anthracite Conciliation Board, showing only twenty-three grievances in three years, as compared with one hundred and fifty in the preceding years.

The Galveston News of Sept. 1 contains a synopsis of the commerce of the port of Galveston for the trade year just closed. The progress made in developing the natural resources of South Texas is proving astonishingly rapid. The port and city of Galveston has made a record along commercial lines equaled by but few ports in the United States during the year. The United States Department of Agriculture, through its crop-reporting board, estimated the 1908-09 growth of cotton in Texas as 3,724,000 bales. The percentage of Texas cotton, comparing receipts with total Texas growth, received at Galveston was 99 per cent. The percentage of Texas and Oklahoma cotton received at Galveston was 83. The total receipts at Galveston were 3,657,156 bales. As a port Galveston continues to grow in importance to cotton growers from year to year. Five years ago Galveston was contesting for first place in number of bales received. This year Galveston leads the list by more than 1,500,000 bales, and it is now known as the greatest cotton receiving and exporting port in the world.

Little surprise was felt at the failure of Walter Wellman's second attempt to reach the pole by the air route. Great as has been the advance in aeronautics in recent years, that advance has not been sufficient to justify the hope that under present conditions such a venture would be successful. Doubtless in time, when further improvements shall have been made, the obstacles of climate and air currents will be overcome and some future Wellman or Andree in a monoplane or some other aerial contrivance will reach the pole and gain eternal fame.

NEWS FROM ALL PARTS OF FLORIDA

The Citrus Exchange of Ocala has made arrangements whereby they are to become owners of the large packing house at that place.

Manager Charles C. Parsons of The Tampa Bay casino has booked some of the best attractions in the country for this season at Tampa.

Six thousand one hundred and thirty-one tons more phosphate was shipped from Tampa during August than during the same month last year.

Tampa has received official notice from Washington that mail delivery will be discontinued after October 1 on all streets where there are no paved sidewalks.—Miami Metropolis.

William W. Charles' crack racing boat Janet, valued at \$2,000, lies a complete wreck about two hundred yards off Coconut Grove's shore. The accident was caused by an explosion.

A large sea turtle was captured at Gaines last week by P. L. Hand. It measured 2½ feet across the under part of its body, 4 feet 10 inches from tip to tip in length, and weighed 400 pounds.

The amount of building permits issued from the office of the fire chief of Tampa during the month of August soared skyward, in comparison with last month. They show an increase of \$144,233.50.

Sam Bass, an escaped convict who was wanted in Georgia, was shot by Officer Ben Jones in Jacksonville last Thursday when he was trying to arrest him. Bass was taken to the county hospital, where he died in less than an hour.

About one hundred and fifty workmen at a cigar factory in Tampa went on a strike Monday on account of Harry Roberts, the manager, refusing to accede to a demand of the cigar makers for an increase in price for making certain sizes of cigars.

Bartow boasts of the best sub-exchange of the Florida Citrus Exchange in the State, having now about 250,000 boxes of oranges and grapefruit in sight. Polk county will contribute about 80 per cent of her fruit to the support of the exchange.

Work has already been started on the new bank building for Crescent City. This is to be quite a handsome structure with a marble front columned with buff pressed brick. The interior will be beautifully finished and will have every modern convenience.

Will Give Souvenirs.

The Dutton Bank is desirous of inducing as many as possible to attend the great demonstration of the electric burglar alarm system on Saturday, the 11th inst., and as an extra inducement the bank has decided to give to each visitor a handsome metal souvenir.

This electrical system, which has recently been installed, is one of the safest guarantees against burglary of the present century, and a system well worthy of the time it requires to investigate it. A full explanation of its mechanical devices will be interestingly explained by an expert, who will be on hand for that special purpose.

The Dutton Bank has exercised the limit of protection to the funds of its depositors, and the efforts of this institution is duly evidenced by the increased patronage.

NATURE SPARES

The Stricken Rose From Grief.

What a fortunate provision of nature it is, that deprives the rose of mental suffering for how poignant would be its grief to discover, in the height of its blooming glory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the suffering; she is a veritable greenhouse of pleasing rewards, for those who seek her aid. In ten years ago by falling hair and grayness have cast a gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ or parasite that burrows into the hair follicles. Newbro's Hair Remedy absolutely destroys this germ, thus permitting the hair to grow as nature intended. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. NEWS OF CITY AND COUNTY CONDENSED

Col. J. A. Coates, the bustling agent of The Times-Union, is spending Sun day in the city.

J. V. Burke of Jacksonville is in the city, a guest of his daughter, Mrs. J. R. Merchant.

Former Marshal Ben T. Arnow has returned last night from Atlanta, Look out Mountain and other points of interest. They report a most pleasant trip.

Mr. and Mrs. J. W. McCollum returned last night from Atlanta, Look out Mountain and other points of interest. They report a most pleasant trip.

Special Agent L. B. Bryan of the Atlantic Coast Line, who has been here for the past two days on official business, returned to Jacksonville yesterday.

Attention is directed to the change of advertisement of the Gainesville Furniture Company. Now is the time to take advantage of an overstocked store, if you are really looking for bargains in this line.

Friends of Captain W. D. Dickinson were glad to welcome him on the streets again yesterday, the first time for the past two weeks. Captain Dickinson has been suffering from neuralgia of the eye.

Roadmaster J. S. Jolley of the Atlantic Coast Line, formerly of Gainesville but now making his headquarters in Jacksonville, passed through the city yesterday en route from Palatka, where he has been on official business.

Not a minute should be lost when a child shows symptoms of croup. Chamberlain's Cough Remedy given as soon as the child becomes hoarse, or even after the croupy cough appears, will prevent the attack. Sold by all druggists.

The Atlantic Plumbing Company has a change of advertisement in this issue to which the attention of our readers is directed. This is one of the most reliable establishments of its kind in the city, and is deserving the patronage which it is receiving.

Dr. Abernethy, the great English physician, said, "Watch your kidneys. When they are affected, life is in danger." Foley's Kidney Remedy makes healthy kidneys, corrects urinary irregularities, and tones up the whole system. J. W. McCollum & Co.

D. L. Williams, who resides about eight miles west of Gainesville, was among the visitors to town yesterday. Neighbors of his inform us that he has as fine cotton crop as is to be seen in the county. He planted early and is nearly through picking the staple.

Mrs. Corpey and son, Marion, who have been sojourning for the past few weeks at White Springs and Melrose, are at home again. Mrs. Corpey's friends will be gratified to learn that her health was greatly improved by the health-giving waters of White Springs.

The monthly meeting of the Woman's Christian Temperance Union will be held at the room Monday afternoon at half-past three o'clock. The president requests that all superintendents of departments bring in a written report of their work for the year at this meeting.

Mrs. T. S. K. Boardman and little daughter, Esther, of Jacksonville, who are visiting the former's sister, Mrs. A. T. Kelley, at Prairie Creek, spent a short time in this city yesterday. They were joined here by Mr. Boardman, and the trio returned to Prairie Creek on the late train.

G. L. Thompson has arrived in the city from Alachua, and will spend Sunday here with his family. Mr. Thompson, who is one of the most successful machine salesmen in the country, is now employed as a specialty salesman in this line for Bishop & Harrison, the general merchants of Alachua.

Chamberlain's Colic, Cholera and Diarrhoea Remedy is today the best known medicine in use for the relief and cure of bowel complaints. It cures griping, diarrhoea, dysentery, and should be taken at the first sign of natural looseness of the bowels. It is equally valuable for children and adults. It always cures. Sold by all druggists.

J. C. Walker, formerly deputy sheriff of Alachua county with headquarters in Gainesville, passed through the city yesterday en route to Hague, where he will spend Sunday, with

friends. Mr. Walker is now serving in the Dunnellon police force, where he has made quite a reputation for efficiency.

Friends of Mrs. W. L. Hill and children will be pleased to learn that they are enjoying their visit at Cumberland, Md., where they are guests of Mrs. Hill's parents, Mr. and Mrs. M. Hoffman. They expect to leave Cumberland in a few days for Baltimore, where they will visit a few days before returning home.

"Can be depended upon" is an expression we all like to hear, and when it is used in connection with Chamberlain's Colic, Cholera and Diarrhoea Remedy, it means that it never fails to cure diarrhoea, dysentery or bowel complaints. It is pleasant to take and equally valuable for children and adults. Sold by all druggists.

Attention is called to the change of advertisement of the Gainesville National Bank, which appears elsewhere in this issue. This bank is the first to advertise the new Lincoln penny—the penny which caused the poor Indian's head to be chopped off—and is offering five to each of their friends and customers in exchange for a nickel.

H. L. Beville of Arredondo was in the city yesterday. Mr. Beville, while attending the union meeting at North Pleasant Grove last Sunday, had the misfortune to sustain an injury to the right hand by coming in contact with a barbed wire fence. The wounded member bled freely and proved quite painful. The victim was taken to LaCrosse, where medical attention was rendered, and friends will be glad to learn that he is very much improved.

Hoppity Hop.

Are you just barely getting around by the aid of crutches or a cane? Unless you have lost a limb or have a deformity—if your trouble is rheumatism, lumbago, sprain, stiff joints, or anything of like nature, use Ballard's Snow Liniment and in no time you can throw away your crutches and be as well as anyone. Price 25c, 50c and \$1.00. Sold by W. M. Johnson.

Will Wed Today.

W. L. Denham, the efficient city editor of The Sun, left last night for Ocala, where today he expects to become a Benedict, his betrothed being Mrs. Nettie Barco Bishop, of the Brick City.

Mr. Denham's many friends in this and other sections of the State will probably learn of his intended marriage with surprise, but all will join in extending him in advance sincere congratulations and best wishes for the future.

After a brief wedding trip, Mr. and Mrs. Denham will be at home to their friends in East Gainesville.

Health

Means the ability to do a good day's work, without undue fatigue and to find life worth living. You cannot have indigestion or constipation without its upsetting the liver and polluting the blood. WALDO NOTES.

WALDO, Sept. 4.—Four of the Waldo baseball team, Harvey, Prewitt, Thigpin and Jolly, went to Cedar Key Monday to join members of the team here to proceed by launch to Dunnellon to play there and at other points.

Mrs. J. P. Entenza and two children returned from their visit to Tennessee Monday. Mr. Entenza is preparing to move his cigar factory to Jacksonville, and his family also later. The dwelling he has been occupying has been sold by H. J. Dowling to Mr. Williamson.

Mr. Donegan and wife (nee Miss Belle Geiger) have returned from a visit to his relatives at Kissimmee. They also visited Orlando.

The roaming of cattle on the streets is a nuisance which the town council has thus far been unable to abate. It has been undertaken to run them away from their night quarters with fireworks, but it is not a success.

There seems to be no serious case of sickness in the town or community.

Application will be made to the Board of County Commissioners next Tuesday for aid for an aged and indigent resident who is in ill health, and who has never been aided in a public way.

Mrs. Paulson of Orange Heights visited Mrs. Atwater the first of the week.

Mrs. Hugh Williams returned from her summer outing in the Carolinas much improved in health, having had a very pleasant visit among relatives.

Meetings are in progress for half this week in both the Baptist and the Methodist churches, and will continue in the latter of next week. Evangelist McCall assisting the Methodist pastor, and Evangelist Estmenger assisting the pastor of the Baptist church.

Capt. Arthur Boring has had his double team for some days hauling clinkers from the railroad to the street fronting his residence and to other low places and sidewalks, with several hands to place them, much to the improvement in looks and comfort of those streets. Dr. Boring has also improved the sidewalk along his property.

Several devotees of the baseball persuasion went to Starke Friday to witness a game in which the Waldo team was interested.

These delightful breezy days are welcomed as coming none too soon, and it is hoped they have come to stay.

Mr. Fletcher, baker at Renault's restaurant, has been in Atlanta some time for his health, and Mrs. Fletcher is supplying his place. Mr. Fletcher is expected home soon.

OPERATION HER ONLY CHANCE

Was Cured by Lydia E. Pinkham's Vegetable Compound

Adrian, Ga.—"I suffered untold misery from a female weakness and disease, and I could not stand more than a minute at a time. My doctor said an operation was the only chance I had, and I dreaded it almost as much as death. One day I was reading how other women had been cured by Lydia E. Pinkham's Vegetable Compound, and decided to try it. Before I had taken one bottle I was better, and now I am completely cured."—LENA V. HENRY, Route No. 3, Adrian, Ga.

Why will women take chances with an operation or drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?

For thirty years it has been the standard remedy for female ills, and has cured thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, indigestion, and nervous prostration.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Mrs. Pinkham at Lynn, Mass., for advice. Your letter will be absolutely confidential, and the advice free.

Closing of Phifer's Sale.

The special sale of Phifer Bros., New York Racket, which has been in progress for the past ten days, closed Saturday night with the most successful results ever attempted on former occasions of this kind.

The sale was originated and conducted by C. T. Clapp, of C. T. Clapp & Co., who managed the same with great success. As a hustler Mr. Clapp has proved a success, and it is no wonder that he has no trouble in making up these sales throughout the country.

A Prominent Visitor.

Among the prominent visitors to this city Saturday was Hon. Fred S. Morse of Miami, land commissioner of the Florida East Coast railway.

Mr. Morse is one of the most prominent Democrats in his section of the State, and was favored one term by his people who elected him as a member of the lower house against strong opposition. He served his constituents well and efficiently, and established a record second to none in that session of the Legislature.

A Narrow Escape.

Edgar N. Bayliss, a merchant of Robinsonville, Del., wrote: "About two years ago I was thin and sick, and coughed all the time and if I did not have consumption, it was near it. I commenced using Foley's Honey and Tar, and it stopped my cough, and I am now entirely well, and have gained twenty-eight pounds, all due to the good results from taking Foley's Honey and Tar." J. W. McCollum & Co.

Senior Epworth League.

The regular meeting of the league will be held this afternoon at 4 o'clock. Strangers and visitors cordially invited. Let all the learners remember the business meeting of the league, September 6th, Monday night, at 8 o'clock. It is very important that every member of the league be present, as the annual election of officers will be held at this time. MRS. R. E. HUFFMAN, President.

MISS LINA TOUSEY, Secretary.

Good for Biliousness.

"I took two of Chamberlain's Stomach and Liver Tablets last night, and I feel fifty per cent better than I have for weeks," says J. J. Firestone of Allegan, Mich. "They are certainly a fine article for biliousness." For sale by all druggists. Samples free.

A Local Quote.

"I tried one of the best winded cats of the neighborhood for the purpose of making a cat out of me."

"Mr. Sheriff, I would, Santa Claus, be a very good father."

"I have a good reason. What is it?"

"I have a good reason. What is it?"

St. Augustine Mission School.

The school of St. Augustine's Episcopal Mission in this city will begin its thirteenth year's work Monday, September 6th.

Although the school has accomplished much good and effective work for the uplift of the colored children of this community to higher condition of living, yet it is hoped, if possible, to set the standard of work higher this year than it has been at any previous year of its existence.

The school has for its object the fostering and promotion of moral, Christian and industrial training, as well as to impart the proper instruction to the pupils in their school text books.

Rev. J. Speight and his assistant teacher, Miss Ella E. Kendrick, are making arrangements to operate both the sewing and cooking departments of the school this year.

Prof. Chas. H. Boyer, secretary of the faculty of St. Augustine's Normal and Industrial School and Collegiate Institute, Raleigh, N. C., in a letter speaks very commendably of the practical and thorough work of the school.

He said that three pupils who had finished the course from the parochial school in this city and transferred to the school in Raleigh were well prepared. Two of them finished from the normal course of that school, and the third is about to enter the collegiate department.

GAINESVILLE, —THE— University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit

a few of them in the following enumeration of what

Gainesville Has:

One artist.
No saloons.
